

## SUPPORT PROJECT CORNERSTONE

Project Cornerstone is a long-term residential recovery program serving men with history of substance abuse who are also experiencing homelessness. Project Cornerstone focuses on addressing addiction as one of the core causes of homelessness and helping eliminate barriers to employment and permanent housing. The program has an 80% success rate.

Let us come together and enjoy a night of fellowship, food, and of course a good ol' ball game with the Young Samaritans and Project Cornerstone men.
