INNOVATIONS IN CARE

We're building a continuum of holistic care to address the root causes of homelessness and hunger. Here's what progress looked like in 2025:

REFERRALS

Referrals made by our Licensed Clinical Social Worker (LCSW): 358
Including referrals for housing, mental health, and employment resources.
Not including referrals for general assistance and vital documents.

TRAUMA RESILIENCE

Professional development for staff to address their own trauma and respond to guests with compassion.

Organization-wide recognition that all guests have experienced trauma, often in childhood.

Nightly devotions, support group meetings, and more.

GUEST EVENTS

“The Way Out” sessions, helping guests identify and resolve barriers to housing needs.

United Health Centers drop-in clinics, providing individual care for guests.

“One of the great joys for me is forming relationships—especially when guests transition out of Samaritan. Some have continued to see me as their primary physician both at Samaritan and at my regular clinic.”

— Dr. Lindsay Sachs, United Health Centers

Novant Health mobile screenings and health education sessions, covering nutrition basics, hydration, and chronic disease prevention.

“Ultimately, the goal is to empower guests to lead a healthier lifestyle of independence and contribution in the community.”

— Leigh Hammond, Health Educator, Novant
